Join Living Beyond Breast Cancer and the Inflammatory Breast Cancer Research Foundation for a free teleconference on Wednesday, July 26, from 12:00 p.m. to 1:30 p.m. Eastern Daylight Time (EDT) focusing on the symptoms, diagnosis and treatment of inflammatory breast cancer and how it differs from other types of breast cancer.

Speaker Angela DeMichele, MD, MSCE, will review the definition, signs and symptoms of inflammatory breast cancer. Moderator Ginny Mason, BSN, RN, will also help you understand the latest research and provide you with resources to manage your quality of life. You will also learn about:

- Methods to confirm an IBC diagnosis
- Treatment options and side effects
- Psychological issues related to IBC
- Managing local and distant recurrences
- Finding IBC resources in your community

Registration is fast & easy! Sign up now online:

or by phone: at 610-645-4567.

Dr. DeMichele is assistant professor of medicine and epidemiology at the University of Pennsylvania and co-director of the breast cancer program of the Abramson Cancer Center. Dr. DeMichele's research focuses on response to therapy and development of targeted therapies. She is a principal investigator of numerous clinical trials and epidemiologic studies and serves on the editorial board of the Journal of Clinical Oncology.

Ms. Mason is executive director of the Inflammatory Breast Cancer Research Foundation, a lay advocacy organization dedicated to the advancement of inflammatory breast cancer research and increasing awareness of IBC and its symptoms to improve detection and diagnosis. She is a member of the Oncology Nursing Society, National Breast Cancer Coalition, and American Society of Clinical Oncology.
